NEUROMUSCULAR ALERT

 Every two weeks, you will find in the **Neuromuscular Alert** the latest citations published in **Pubmed, sorted by disease and medical specialties**. Each citation is linked with Pubmed abstract.

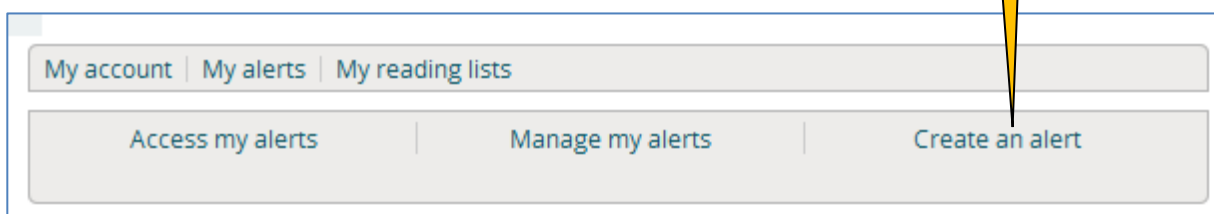

The list of covered diseases comes from the October 2012 publication "Avancées médico-scientifiques neuromusculaires", Fiche technique Savoir & Comprendre developed by AFM-Téléthon. This list will expand based on the evolution of the "2nd Plan national maladies rares".

Subscribe to receive by mail the last Neuromuscular Alert (by writing "Neuromuscular Alert subscription" in email title).
